Aviation Supply Specialist

R-Supply

December 2012 to December 2016

Maintained customer service logs and reports by using Microsoft Word, Excel, Nalcomis, and R-Supply to properly reconcile and verify requisitions.

- Communicated freight transportation information to customers/suppliers, using transportation

management, electronic logistics marketplace, and defense logistic agencies; resulting in the upkeep of equipment worth over \$100 million.

- Established and monitored specific supply chain-based performance measurement systems by verifying material as federal, local, or manufactured/salvaged; led to partial and full mission capabilities.

- Balanced over \$10 million worth of inventory on a daily basis; recommended and implemented business process improvements to overall system saving extensive time and money.

Maintenance Control/Material Control Specialist

- Educated employees how to verify requisitions, order consumables, repairables, classifications, clearance, cost, identification, legitimacy of part and hazardous material more efficiently.

- Constant Accountability of requisitions over \$1,000,000 in revenue.

CRITICAL THINKING:

- Improvised unpredictable situations to optimal capabilities.

- Verified whether to accept or decline requisitions based on task completion.
